OTSF

To Whom It May Concern:

It is with great delight to recommend to you my highly valued logistics partners OTSF. In my role as Manager, I & D Logistics at Kubik Inc. I have worked closely with Andre and Andy for several years.

OTSF has managed many of our logistic needs around the world and under some pretty tight deadlines. Their work has helped contribute to many of our company's greatest achievements. Whether it was for a trade show, special event, or permanent install, Andre and his team at OTSF has always made us feel like we were given their highest priority and attention.

Our core business relies on Kubik always delivering the goods regardless of the timelines and if this is not managed correctly it could prove disastrous. OTSF has always understood our core business and philosophy and worked closely with us to maintain our high level of service.

We consider OTSF a partner rather than a vendor and I would recommend OTSF to anyone that values consistently high service standards.

Sincerely,

Mike Heffernan,

Manager, I & D Logistics,

Kubik Inc,
