

November 23, 2010

Progress Packaging has been dealing with OTSFF for well over 10 years. Our relationship is based on earned trust and mutual respect.

From ocean and air shipments, to customs clearance, warehousing and distribution, this company can handle it all.

Keeping us well informed and educated is essential in our line of business, and assists us greatly in our daily work flow.

Their personal attention to detail and willingness to go the extra mile is reflected in all they do. They have installed an on-line tracking system for our shipments and update this system on a daily basis. This is a great help in keeping our customers updated on their shipments out of Asia.

The professionalism, speed and courtesy with which they operate, even under pressure, is truly impressive.

We would recommend them to anyone looking for personal service, which is missing from the larger freight forwarding companies.

Best regards

Rodney Goldberg
