OTSFF is by far the best freight forwarder that my company has dealt with to date. Their customer service is truly second to none and everyone there is a pleasure to deal with. OTSFF has been handling all of our shipping needs for the last 2 years and saves us several thousand dollars per month over every other freight forwarded that we have dealt with while making the entire importation process so much more simple. I look forward to many more successful years to come with OTSFF.

Best Regards,
